A well designed, great looking and up to date website is more effective for business.

Websites are effective marketing tools in highlighting that your business is active and up to date. Websites that are out of date both in content and in design can reflect negatively on a business; driving away potential clients. Here at Ascend 7 we understand that maintaining a website can be difficult and time consuming so we can assess your website's current performance, implement hassle free support and systems and refresh your website in order to keep it alive.

Website Audits

Monitoring your website's successes and failures can be useful in improving your website's performance in order to get a better return from your online investment.

However, deciphering the information provided by website monitoring technologies can be difficult which is why Ascend 7 can provide you with an easy-to-understand report detailing your website's current performance and how to improve it.

Website Refresh

With the fast paced nature of the internet, websites need to keep up with changing trends and internet technologies in order to remain effective.

Ascend 7's talented team can give breathe some life into your current website in order to give it the refresh it needs to stay up to date.

Content Management

Content is the single most important factor in ensuring success on the internet. Out of date or incorrect content is one of the most common website problems.

Ascend 7 can implement an easy-to-use Content Management System so you are able to update your website at your discretion. Alternatively we can also provide a hassle free periodical website update service.

Search Engine Optimisation

Return from your online investment is predominantly gained from getting the right people to visit and interact appropriately with your website and organisation. This is made possible by optimising your website specifically to search engine standards.

Ascend 7 offers a full range of services to market your website and maximise customer acquisition.

Ascend 7 also offers

- Professional Email and Web Hosting
- Domain Names
- Print and Online Design Services
